What medication are you interested in?

Semaglutide and tirzepatide are both highly effective GLP-1 medications. Semaglutide is the active ingredient in drugs like Ozempic, Wegovy, and Rybelsus. Tirzepatide is the active ingredient in Mounjaro and Zepbound. In studies, tirzepatide has been shown to stimulate more weight loss and may have fewer side effects. For more information visit our pages on [Semaglutide](#) or [Tirzepatide](#).

Semaglutide - Starting at \$159/month

Tirzepatide - Starting at \$259/month

What dosage do you want to start with?

Tirzepatide/Niacinamide Injections are available in 3 concentrations/ vial sizes:

concentration	vial size	vial cost
8/2 mg/mL	2.5 mL	\$259
17/2 mg/mL	2 mL	\$349
17/2 mg/mL	4 mL	\$559

Your licensed medical provider will review your health history to ensure this is a good fit for you. Dosage can be changed at any time with your provider's approval.

Semaglutide/B12 injections are available in 4 concentrations/vial sizes:

concentration	vial size	vial cost
1/0.5mg/mL	1 mL	\$159
1/0.5mg/mL	2.5 mL	\$229
5/0.5mg/mL	1 ml	\$279
5/0.5mg/ml	2.5ml	\$329

Your licensed medical provider will review your health history to ensure this is a good fit for you. Dosage can be changed at any time with your provider's approval.

The next step is to pay the \$59 online consultation fee and then schedule an online consultation with one of our physicians by making an appointment with them on the Outlook calendar. Once the consultation fee is paid you will have access to the Outlook calendar to schedule your physician consultation. Review the calendar for medical provider availability. During the consultation with the physician your quiz questions will be reviewed and a treatment plan will be determined. The physician will confirm your medication order. The \$59 consultation fee will be refunded if no medication is recommended by the physician.

**Estimated delivery is 1-2 weeks, which includes order submission, pharmacy fulfillment and shipping.*
